

Posting Date: November 8, 2017

Position: PM Maintenance Mechanic – Mill Creek Brewery

Department: Maintenance

Looking for a Team Player to assist Full Time from 5:00 p.m. to 5:00 a.m.

Job Description Summary: Position is responsible for repairing and maintaining production/manufacturing equipment. Inspects equipment for proper functioning and performs preventative maintenance duties per manufacturer's specifications. Diagnoses equipment malfunctions and makes repairs or adjustments as needed.

This position requires continuous work near heat, noise, gas, and chemicals. The position requires frequent lifting, climbing, standing, walking, crouching, squatting, bending and kneeling. The position may require weekend and/or holiday work.

Primary Responsibilities/Accountabilities:

1. Perform preventative maintenance on production equipment
2. Provided production maintenance vacation coverage as needed
3. Perform breakdown analysis and PM inspections
4. Perform general housekeeping
5. Perform special assignments and duties as required
6. Change line for package changeovers
7. Provide maintenance support to all areas of the brewery
8. Work independently under limited supervision (self-management)
9. Documentation of work schedule and work tasks completed

Interested applicants should submit resume and cover letter to:
